IPT AT A GLANCE:

Institute of Pharmacy & Technology (IPT), Salipur is a premier research based institution in Odisha with the state-of-art infrastructure, modern laboratories coupled with student support services. IPT was established in 1982, with an objective to provide high quality education with unwavering commitment to generate competent pharmaceutical technocrats. IPT has 37 years of excellency in Pharmacy Education, strengthened with eminent and highly qualified faculties. IPT is the only pharmacy institution in the state of Odisha, as well as in eastern India accredited by NBA (B.Pharm Course) with ISO certification.

Our mission is to impart quality education in pharmacy with continuous enrichment of knowledge and skill, to inculcate the research aptitude and leadership quality to meet the dynamic needs of global village.

RESEARCH BACKGROUND

Our Institution is offering industry standard research facilities which include state of art CADD lab, NDDS lab, modern synthetic labs and central instrument lab added with modern instrument facilities. IPT is recognised as a research centre for PhD Scholars by BPUT. The Institution has research collaboration with NIT, Rourkela.

CONFERENCE PROSPECTIVE

This conference is dedicated to the research on effective uses of cell based vehicles for drug development and therapy, debating on the recent trends and future challenges. The interactive nature of this symposium is designed to jumpstart the formation of a scholarly community within our profession that will focus specifically on modern approaches of drug development and therapy. Panellists will not only highlight their research on cell based vehicles for drug development and therapy but also focus on wide range of methodological approaches. This conference will envisage a new beginning in the field of research and develop a relationship between us which will pave the way for better tomorrow.

CONFERENCE'S THRUST AREAS

- ▶ Cell-based drug-delivery platforms.
- ▶ Targeted drug delivery by mammalian cell based vehicles.
- ▶ Cell models of drug metabolism and disposition in drug discovery and development.
- ▶ Cell lines for drug discovery and immunotherapy checkpoint research.
- ▶ Single cell analytic tools for drug development.
- ▶ New opportunities for stem cells in drug development and therapy.

SCIENTIFIC SESSION

The conference addresses broad themes of biological sciences in drug development and therapy. The conference will host several eminent keynote speakers and distinguished speakers from industry, national research institutes and academics who will deliver on a wide range of topics and will share their expertise on cell assisted techniques involved in drug development and therapy.

ACCOMMODATION

Delegate interested for accommodation, must mention in registration form and have to inform over telephone by 28-02-2019 for confirmation.
